

# Floorseal Stone & Tile Sealer Satin

SKU: STSS

## DESCRIPTION

Stone & Tile Sealer Satin is a satin finish sealer for all interior porous natural stones & tiles. This sealer will slightly deepen surface colours and produce an attractive sheen. It can be applied to slate, sandstones, honed limestones, brickwork, clay-based tiles & other porous surfaces.

## USES

The sealing of:

- Natural stones i.e. sandstone or slate.
- Porous clay-based tiles.
- Brick floors.

If in doubt, please call Floorseal Ltd on **01484 861461** or email [info@floorseal.co.uk](mailto:info@floorseal.co.uk) for guidance.

## ADVANTAGES

- Water based.
- Low odour.
- Rapid dry.
- Deepens colour.
- Creates a satin finish.
- Inhibits water & oil-based staining.
- Easy application.

## COVERAGE

Approximately 20m<sup>2</sup> per litre (per coat).

## DIRECTIONS OF USE

- Carry out a test in an inconspicuous area.
- If you find this product is not suitable for use on your project do not continue to use.
- Switch off all underfloor heating systems and allow to cool before using this sealer.
- All traces of grout or sand and cement mortars must be removed before sealing.
- Do not apply to newly laid slabs and tiles until the substrate has had time to dry, typically 14 days.
- All surfaces must be completely dry.
- Apply with a masonry style roller, paint pad or microfibre cloths.
- Apply one coat thin coat and allow to dry for 1 hour.
- The surface will accept light traffic after 1 hour.
- Do not walk on the surface if it is still tacky.
- Apply a 2nd coat and allow to dry as before.
- You can apply more coats to increase the level of sheen if desired.
- The product dries in approximately 1 hour but does not fully cure for 24 hours.
- Do not place furniture back on the sealed for 24 hours.
- This product should only be applied when air temperatures are above 10°C and below 23°C.
- Safe for children & pets when dry.
- If you wish to seal a previously sealed surface, contact us for advice first.
- Do not apply to polished stone, glazed or non-porous surfaces.
- Do not apply to exterior surfaces or use in wet rooms or bathrooms.

## CONTRAINDICATIONS

- Do not apply to damp floors.
- Please contact us for guidance if your floor has been sealed previously.
- If applied to a previously sealed surface which has not been stripped correctly the product may fail.
- Do not use in wet rooms.
- Not for use on exterior surfaces.
- Do not use on non-porous surfaces like ceramic glazed tiles or porcelains.
- Use Ph neutral cleaners for everyday cleaning after the surface has been sealed.
- Do not use as a pre sealer please use one of our impregnating sealers. Contact us for details.

This product is non-flammable. Store in original container in a cool dry place, out of direct sunlight. Do not allow to freeze. Keep out of reach of children.

## SHELF LIFE

The maximum shelf life is 12 months. Please agitate periodically.

## PRODUCT DATA

<b>Appearance</b>	White/Opaque liquid.
<b>Ideal Application Conditions</b>	Totally dry unsealed surfaces.
<b>Dwell Time</b>	N/A
<b>Other Data</b>	Everyday cleaning should be carried out with Ph neutral cleaners.

## SAFETY PRECAUTIONS

Harmful if swallowed.  
Causes serious eye irritation.  
Keep out of reach of children.  
Keep container tightly closed.  
Do not get in eyes, on skin, or on clothing.  
Wash skin thoroughly after handling.  
**IF SWALLOWED:** rinse mouth. Do NOT induce vomiting.  
**IF ON SKIN:** Gently wash with plenty of soap and water.  
**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
If skin irritation or rash occurs: Get medical advice.

## ADDITIONAL USER INSTRUCTIONS

- Always apply to totally dry surfaces.
- Leave adequate drying time after pre cleaning, more than 24 hours is often required on porous stone or clay-based tiles.
- Microfibre cloths usually create the most even finish.
- Thin coats are essential.
- Use Ph neutral cleaners for aftercare cleaning i.e. Floorseal Ph Neutral Floor Cleaner.
- Expect differences in appearance when applied to different types of surface. This is not a paint!
- Do not use as a pre sealer. Use one of our impregnating sealers. Contact us for details.
