

Cleaner Additive

SKU: CADD

DESCRIPTION

Cleaner Additive is a foaming and thickening agent which boosts the cleaning power of our external cleaning products. Apply with Floorseal Patio Cleaning & Black Spot Removal Products. Cleaner Additive inhibits the drying time of our patio cleaning and black spot removal products.

This product is typically used when cleaning horizontal and vertical surfaces such as patios, paths, driveways, roofs, walls & lintels. Cleaner Additive increases the ability of cleaning solutions to cling to the surface being cleaned. This solution will identify the areas your primary cleaning product has been applied to due to its foaming action.

USES

- Add to cleaning solutions such as black spot removers to improve their performance.
- Thickens cleaning agents to prevent premature drying.
- Helps cleaning agents cling to vertical surfaces.
- Add to Floorseal black spot remover & patio cleaning solutions.
- Helps to identify areas that the primary cleaning fluid has been applied to due to the foaming action of this product.

If in doubt, please call Floorseal Ltd on **01484 861461** or email info@floorseal.co.uk for guidance.

ADVANTAGES

- Inhibits premature drying of cleaning solutions particularly when removing black spot lichens.
- Helps cleaning solutions cling to vertical surfaces when cleaning walls, roofs, or lintels.
- Can be added to hypochlorite.
- Can be added to traffic film removers.

COVERAGE

As per the cleaning solution this product is being used in conjunction with.

DIRECTIONS OF USE
