

Floorseal Stone Pro

SKU: SPOR

DESCRIPTION

Stone Pro is for cleaning & removing organic growth from headstones, garden ornaments, stone statues, & stone mullions. Stone Pro removes moulds, algae, lichen & other organic contaminants. Suitable for use on marble, granite, sandstone, bricks, limestone, slate, basalt, concrete, lime, quarry tile, terracotta & more.

Spray over the surface and watch algae, mould and lichen disappear. Removes black moulds on new or old interior/exterior stone mullions & other surfaces. Also removes black moulds which appear on interior natural stone, plaster & tiles. Succeeds where household cleaners have failed - No need for scrubbing!

USES

The cleaning of:

- Sandstones, limestone, slate, basalt, marble, granite & other natural stone.
- Clay-based materials such as clay tiles, terracotta, quarry tiles, bricks & general clay pavers.
- Concrete & cement-based screeds.
- General clay & concrete brickwork.
- Headstones & statues.
- Stone mullions, ornaments & plant pots.

If in doubt, please call Floorseal Ltd on **01484 861461** or email info@floorseal.co.uk for guidance.

ADVANTAGES

- Removes lichens, moulds, algae and leaf staining.
- Perfect for treating smaller areas like stone mullions, plants pots, ornaments and statues.
- Apply diluted or undiluted to suit the level of contamination encountered.
- Complete with a handy container and spray maker.

COVERAGE

Dependant on the level of contamination, surface type & porosity of the surface.

DIRECTIONS OF USE

- Wear appropriate PPE, safety goggles & gloves.
- Wear suitable overalls or old clothing as this product can discolour natural fibres.
- Carry out a test in an inconspicuous area. If you find this product is not suitable for use on your project, do not continue to use.
- This product is (typically) applied diluted 1:1 with clean water, using the sprayer provided. The solution can be used in weaker dilutions or undiluted.
- Saturate the surface once using the sprayer provided, then immediately overspray again to keep the surface wet with product.
- Once both applications have been made contaminations will start to disappear.
- For **interior** use, or mild contaminations, the product can be allowed to dry on the surface (without rinsing).
- Mould & algae will start to disappear quickly, black spot lichens may take a little longer & may require more than one application.
- The **longer** this product is kept **wet** on the surface the better it works!
- On **exterior** surfaces rinse off with clean water after use.
- Avoid contact with surrounding unaffected surfaces such as metals, rinse/wipe off if the product encounters metals.
- Do not spray onto adjacent plants etc or allow the product to mist over them.
- Do not allow this product to enter ponds or encounter aquatic life.
- Safe for children, pets & wildlife when dry.
- This product can be successfully applied in damp or dry weather conditions.
- For exterior surfaces - follow up with **Floorseal Green Remover Concentrate** once or twice per year to maintain the surface.

CONTRAINDICATIONS

- This product will not remove bitumen staining.
- Only for the removal of organic contaminations.
- Does not prevent the return of black spot.
- Avoid applying to metals or plastics - if this product encounters these surfaces, rinse off promptly with clean water.
- It is possible to protect gold /lead/metal script on headstones etc by temporarily applying Vaseline over inlaid script. Most metals do not react, but you should test and cover if required.
- Do not allow to travel into ponds or encounter aquatic life.
- Rinse out the container and spray maker after each use.

Continues Overleaf

PACKAGING

This product is non-flammable. Store in original container in a cool dry place, out of direct sunlight. Do not allow to freeze or become unduly hot. Keep out of reach of children.

SHELF LIFE

This product will lose its strength over time. It is preferable to use the product at the point of purchase or within 6 weeks of this date. The maximum shelf life is 12 months.

PRODUCT DATA

Ideal Application Conditions	Cool conditions are preferable.
Dwell Time	A few minutes to hours depending on the type of contaminations. Carry out a test patch to determine.
Other Data	Can be allowed to dry on the surface of awkward to rinse areas.

SAFETY PRECAUTIONS

Contact with acids liberates toxic gas.
Contains sodium hypochlorite.
Keep only in original packaging.
Do not breathe dust/fumes/gas/mist/vapours/spray.
IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
IF INHALED: Remove person to fresh air and keep comfortable for breathing.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

ADDITIONAL USER INSTRUCTIONS

- Longer dwell times or multiple applications may be required on heavily contaminated areas.
- Black mould and algae will disappear quickly; lichens and leaf staining/tannins can take longer to fade.
- Avoid contact with unaffected areas such as UPVC & metals. Rinse well (and promptly) with water if the product encounters surrounding UPVC or untreated metal.
- It is possible to protect gold /lead/metal script on headstones etc by temporarily applying Vaseline over inlaid script. Most metals do not react, but you should test and cover if required.
- Ventilate interior areas whilst applying this product.
