

# Floorseal Cement & Grout Haze Remover

SKU: CGHP

## DESCRIPTION

Cement & Grout Haze Remover is a powerful cleaning solution for the removal of cement staining, cement-based grout haze, leachate staining, mortar splashes, lime hazes, concrete hazes & for the removal of fresh efflorescence salting. This cleaning agent can be applied to internal or external acid-resistant surfaces.

Suitable for use on most sandstones, slate, porcelain, brick, ceramic tiles, terracotta, Victorian tiles, quarry tiles and general clay-based tiles. Do **not** apply to acid sensitive surfaces. Always **test before use** to ensure suitability.

## USES

The cleaning of:

- Acid resistant natural stones i.e. sandstone.
- Porous clay-based block pavers.
- Clay brickwork.
- Terracotta.
- Quarry Tile.
- Porcelain.
- Victorian Tiles.

If in doubt, please call Floorseal Ltd on **01484 861461** or email [info@floorseal.co.uk](mailto:info@floorseal.co.uk) for guidance.

## ADVANTAGES

- Can be used on interior & exterior surfaces.
- Powerful formula.
- Fast acting.
- Low fuming.

## COVERAGE

Approximately 8m<sup>2</sup> per litre.

## DIRECTIONS OF USE

- **Do not apply to acid sensitive surfaces like limestone, travertine, marble, & basalt.**
- **Carry out a test in an inconspicuous area. If you find this product is not suitable for use on your project, do not continue to use.**
- Typically applied undiluted, but may be possible to dilute for mild contaminations (subject to testing).
- Apply with a mop or a brush on internal surfaces.
- A hand sprayer can be used when treating vertical interior surfaces.
- A low-pressure pump-sprayer or plastic watering can is suitable when applying to larger exterior areas.
- Apply liberally to the surface & allow to briefly dwell.
- Lightly agitate the product during the dwell time, then rinse away with liberal amounts of clean water (within a few minutes of application).
- Do not allow the product to dry on the surface during the dwell time (add more product to prevent this).
- Repeat as required.
- Do not allow the product to encounter varnished, painted or metal surfaces. Mask off or avoid.
- When using indoors ventilate the area and ensure any vapours clear.
- Safe for children, pets, and wildlife when dry.
- **NOT suitable for the removal of resin-based compounds, resin-based grout or epoxy grout/ pigments.**
- Do **NOT** apply to acid sensitive surfaces. **Test before use** to ensure suitability.
- Coverage rates will vary depending on surface type, porosity & level of soiling.

## CONTRAINDICATIONS

- Do not apply to painted, varnished, or metallic surfaces.
- Do not apply to acid sensitive surfaces.
- Ventilate the room & allow vapours to clear when using indoors.
- Carry out a test patch in an inconspicuous place before full application.
- Does not remove resin-based brush in compounds.
- Does not remove thick coatings/crusts of cement, concrete, mortar or grout staining after it has cured.
- Does not remove slurry primers mixed with SBR.

## PACKAGING

This product is non-flammable. Store in original container in a cool dry place, out of direct sunlight. Do not allow to freeze or become unduly hot. Keep out of reach of children.

Continues Overleaf

## SHELF LIFE

The maximum shelf life is 12 months.

## PRODUCT DATA

<b>Ideal Application Conditions</b>	Dry surfaces with ventilation.
<b>Dwell Time</b>	A few minutes only. Rinse well after use.
<b>Other Data</b>	Neutralise with clean water.

## SAFETY PRECAUTIONS

Keep out of reach of children.  
Do not breathe dust/fumes/gas/mist/vapours/spray.  
Wear protective gloves/protective clothing/eye protection/face protection.  
IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.  
IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water.  
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get immediate medical advice/attention.  
IF INHALED: Remove person to fresh air and keep comfortable for breathing.  
Contains: PHOSPHORIC ACID; HYDROCHLORIC ACID

## ADDITIONAL USER INSTRUCTIONS

- Adjust the ratio of solution to be effective on the level of contamination encountered.
- It is the user's responsibility to check whether the surface being treated is not acid sensitive. Do not apply to acid sensitive surfaces.
