COVERAGE

Varies depending on dilution rate.

DIRECTIONS OF USE

- **Carry out a test in an inconspicuous area.**
- **If you find this product is not suitable for use on your project, do not continue to use.**
- For general cleaning add approximately 25ml into 5 litres of warm water (1:200).
- For deeper cleaning add approximately 100ml into 5 litres of warm water (1:50).
- Dilution rates can be altered to suit the level of soiling on lacquered/varnished/laminate flooring. **For oiled or waxed floors, do not exceed the dilution rate of 1:200.**
- Can be applied with a traditional mop & bucket system or flat microfibre mop.
- The product is also compatible with spray mop systems.
- Clean the floor by dampening the surface with product.
- Wring your mop out first, or use a damp flat mop system/ fast dry misting spray system.
- Avoid saturating/over wetting the floor.
- When cleaning with the correct amount of water/ product the floor should start to dry within minutes.
- If using at **very high** concentrations (1:50 & above) rinse gently after use.
- Repeat as required.
- Safe for children & pets when dry.

CONTRAINDICATIONS

- When applying to wooden flooring do not over wet the floor.
- Rinse after use if using in higher concentrations.
